

## **REMARKS**

The Applicant herein received an office communication dated December 27, 2006 in which the Examiner rejected claims 20-41 because of the numbering of claims. Applicant has made the claim number changes as suggested by the Examiner, as reflected in the foregoing amended claims.

The Examiner also made a double patent rejection relating to Patent No. 6,685,607. The Applicant already filed a Terminal Disclaimer in this application on July 10, 2006 relating to Patent No. 6,685,607. Thus, an additional Terminal Disclaimer should not be necessary in the present application.

## **Conclusion**

In view of the foregoing, applicant respectfully requests the Examiner's reconsideration and allowance of claims 20 - 45 as amended and presented herein.

In the event that the Examiner finds remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, the Examiner is requested to contact the undersigned attorney.

Dated March 1, 2007.

Respectfully submitted,
